DETAILED ACTION

Applicants' response, which included amendment to claim 1 and 11, filed on 11/6/2006, is made of record. Claims 1-17 are pending. Of which claims 7 and 12-17 were withdrawn from consideration in the previous office action. Claims 1-6 and 8-11 are under consideration. In view of applicants' amendment to claims 1 and 11, all 112 first and second paragraph rejections made in the previous office action have been obviated. However, the following new ground of rejection is applied to claim 1.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Tuntulani et al., Bulletin of the Korean Chemical Society, 21(12), 1245-1248, 2000. CAPLUS Abstract provided.

See compound shown in the CAPLUS Abstract. When A¹ is second choice, the compound taught by Tuntulani et al., anticipates instant compound generically claimed in claim 1.

Allowable Subject Matter

Claims 2-6 and 8-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Election/Restrictions

This application contains claims 7 and 12-17 are drawn to an invention nonelected with traverse in Paper dated 5/1/2006. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
